

CONTENTS

A. P. Yefremov	
Physical laws in hypercomplex medium: mechanics	5
Yu. G. Ignat'ev, A. A. Agathonov, D. Yu. Ignatyev, M.L. Mikhailov	
Nonminimal macroscopic models of a scalar field based on microscopic dynamics.	
II. Cosmological evolution of the plasma with interparticle fantom interaction	16
Yu. A. Portnov	
Dynamic and static cosmological constant in a seven-dimensional gravitational equations	32
Yu. G. Ignat'ev, V. A. Bushkova	
Computer simulation and the clothing operated dynamic visualization of curves in differential, Riemannian geometry and Theory of Gravitation	38
